Fax: 573-458-6264

4-H is young people preparing to be future leaders. It is a community of young people across America who are learning leadership, citizenship, & community service. These young people ages 5-18 have the opportunity to learn more about activities they are interested in through a "hands on" learning approach in which parents & other caring adults help them "learn by doing". The Phelps County 4-H Program has a history of positive influence in the lives of youth. Today 4-H has expanded from its rural roots to include a wide variety of project interests including photography, shooting sports, & aerospace while still keeping the traditional projects such as food/nutrition & livestock.
