

Missouri Kids Health Coalition

65560

Phone: none

Missouri Kids Health Coalition (MO Kids) was formed to bring together organizations and resources to make our Missouri children's health and future potential a priority. We support the dissemination of information and activation of plans and policies for healthy practices for our children at school, home and extra-curricular and athletic activities. We promote healthy lifestyles such as healthy diets, exercise, healthy schools and day-cares including safer pest management and healthy indoor air quality. We take on projects that are in-line with our priorities to ensure the health of Missouri's children.
